EDUCATION

University of Sahiwal, Sahiwal BS in information technology Sept 2019-Aug 2023
CGPA: 3.30/4.0

Course work:

Programming Fundamentals, Object Oriented Programming, Data Structures & Algorithms, Operating Systems, Computer Networks, Database Systems, System and Network Administration, Virtual Systems and Services.

PROJECTS

Image-Verse Web Application

Developed a web application using Python Django for managing and sharing images. The platform allows users to upload, edit, and organize images with descriptions, featuring secure authentication, user-friendly navigation, and responsive design. Integrated CRUD operations for image management and implemented login / logout functionality for seamless user experience.

Personal Portfolio

A modern portfolio website built using ReactJS and Tailwind CSS, designed to showcase projects and skills with a clean, responsive layout. Features include smooth navigation, customizable sections, and beautifully styled components with a focus on performance and user experience. This project highlights expertise in frontend development, using ReactJS for dynamic content and Tailwind CSS for efficient styling.

Note-Master Web Application

A full-stack web application built with Django and ReactJS, designed for secure personal note-taking. Users can register, login, and create, update, or delete personal notes, with all data securely managed on the backend. The app features a responsive, user-friendly interface, combining Django for robust backend functionality and ReactJS for a dynamic frontend experience.

SKILLS

LANGUAGES TOOLS TECHNOLOGIES

- PYTHON / DJANGO
- JAVASCRIPT / REACTJS
- REST API
- TAILWIND CSS
- SQL
- HTML
- CSS
- BOOTSTRAP
- VSCODE
- GIT / GITHUB

ADDITIONAL EXPERTISE

- DIGITAL MARKETING
- GRAPHIC DESIGNING
- PROBLEM SOLVING
- SOFTWARE TESTING
- CODE DEBUGGING
- RESPONSIVE DESIGN
- COMMUNICATION
- TIME MANAGEMENT
- INNOVATIVE
- TEAMWORK
